ELECTRONIC MANUFACTURING SERVICES

ABOUT US

Emerald EMS is a global company with a local customer focus, offering advanced high mix, low- to medium-volume manufacturing capabilities for high-reliability end markets, including **Aerospace & Defense, Industrial Markets, Life Sciences**, and **Networking & Communications**.

Created through the merger of four leading EMS companies—**DataED, Bestronics, Saline Electronics** and **Veris Manufacturing**—Emerald EMS provides its customers experienced engineering and a full suite of manufacturing services throughout a product's lifecycle—from **design assistance, prototyping & assembly** through **functional test, distribution**, and **supply chain management**—all under the supervision of your dedicated **Customer Success Team**.

At Emerald EMS we strive to serve our customers in high-reliability market segments.

As our customer, you will benefit from our dedication to high levels of customer support and our keen attention to quality and reliability.

We keep our focus on the operational flexibility you need to adjust to new technological advancements, which allows you to serve new emerging markets and customer segments.
