Re: **Environmental Compliance and Materials Declaration Request Registration, Evaluation, Authorization and restriction of Chemicals (REACH), Restriction of Hazardous Substances (RoHS), Water Electrical and Electronic Equipment (WEEE), Rare Earth (RE), Hexavalent Chromium Substances**

Dear Valued Customer:

We are in receipt of your recent inquiry regarding environmental compliance and materials declarations. We are aware of the obligations these regulations place on manufacturers and importers.

Saline Lectronics, Inc. is not a manufacturer of electronic parts and thus is not in a position to provide accurate information relating to the materials content of the products it produces or that was designed by your company. The manufacturers of electronic components and products are the only source of accurate information regarding substances, including any conflict minerals, used in the manufacture of their products.

For information on specific components, we suggest you subscribe to SiliconExpert Technologies. SiliconExpert works directly with component and product manufacturers to obtain materials and hazardous substance content. SiliconExpert maintains chemical and environmental compliance data for electronic components spanning several regulations and industry standards such as REACH, EU RoHS, China RoHS, WEEE, JIG-A, JIG-B, RoHS 2 & ELV. Information regarding Conflict Minerals is available in the SiliconExpert Technologies parts database. If you are interested in exploring how we could help you with using SiliconExpert, please send an inquiry to your account manager at Saline Lectronics.

If we can assist further, please do not hesitate to direct your inquiries through your normal sales channels.

Sincerely,

Saline Lectronics Inc.
